

NatHERS accredited software minor update request

This form should only be used for bug fixes or minor changes that are minor or machinery in nature. Rating outcomes must not exceed: ± 1 star in 100% of simulations and ± 0.2 stars in 99% of simulations. Please return the form to the NatHERS Administrator via admin@nathers.gov.au.

Proposal title

Software version number

Current:

Proposed:

Contact information

Date of submission

Submitted items

- Ratings (use template provided by Administrator)
- Beta tool
- Rating files
- Other information

Proposal type

Bug fix/es

Minor change/s

Combination

Reason for update

Describe the nature and extent of the problem/s that is/are to be addressed by the change. You may include: information about who is affected and in what way, the risks, etc

Impact of update

Describe the cumulative/combined star rating impacts of the update. Outline the testing process or other evidence used to demonstrate the impact.

Proposed implementation

Explain the change and how the change is to be implemented, and the proposed timeline. Include details about any dependencies.

Training resources

Will training resources need updating? Please attach

Communications

How will users be informed? What information will be communicated?

Supporting documentation

Any supporting documentation, including a list of any attachments.

Relationship to legislation

Detail any related legislation. Will state and territory building administrations be affected by these changes? If you don't know leave blank.

Recommendation

Contact the NatHERS Administrator for a copy of the rating impacts spreadsheet template (image below)

The yellow fields must be completed by the software provider

Testing star rating impacts of minor updates									
				Software tool - current version	<i>[enter details]</i>				
				Software tool - proposed version	<i>[enter details]</i>				
				Rating file 200	<i>[enter version and provide this file to NA for spot check purposes]</i>				
				Rating file 500	<i>[enter version and provide this file to NA for spot check purposes]</i>				
				Rating file 610	<i>[enter version and provide this file to NA for spot check purposes]</i>				
				? Other rating files if used
