

New NatHERS Ratings

Expanding and improving energy ratings across Australia

NatHERS has Expanded

NatHERS rates the energy performance of your fixed appliances such as heating, cooling, hot water, solar panels and batteries. This is in addition to the thermal shell rating for your home.

Thermal Shell

Whole of Home

Consumer Choice

A NatHERS assessment helps you improve the energy efficiency of your planned home or major renovation. It also helps you decide what appliances and energy sources best suit your needs.

Updated Certificate

New certificates have two ratings: a star rating out of 10 and a 0-100 performance rating. Higher scores mean your home will be more comfortable to live in and cheaper to run.

The Benefits

NatHERS helps you build a comfortable, energy efficient, healthy home for your family with lower energy bills and reduced emissions.
